Energy Program

Citywide Energy Improvements 37-041.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for Energy Efficiency projects typically addressing lighting, air conditioning, chiller, pumping and fan systems. Newer, more efficient technologies greatly reduce energy consumption.

Justification: Energy efficiency improvements repay capital costs in one to nine years, depending upon the project. The energy savings continue each year. The first project will be to repair the cogeneration units at Police Headquarters, which have failed due to poor design. Additional projects will be scheduled as funding and priorities permit.

Operating Budget Effect: None

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: The first project is anticipated to enter the design phase in Fiscal Year 2008.

Summary of Project Changes: This is a new capital project for Fiscal Year 2008.

Underground Hazardous Materials Storage Tanks 33-084.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for implementing the Citywide Underground Hazardous Materials Storage Tank Master Plan. The Master Plan addresses the removal, installation, closure, site assessment and mitigation, replacement, testing, and rehabilitation of the 69 City-owned underground storage tanks (USTs). Site assessment and mitigation activities related to 32 unauthorized releases are ongoing to maintain regulatory compliance, eligibility for State reimbursement, protection of groundwater and public health and safety. In addition, 12 USTs are required to have Phase II Enhanced Vapor Recovery (EVR) systems in place by April 2009 per the State of California.

Justification: The State Underground Storage of Hazardous Substances Law (Sher Bill AB 1362) and SB989 establish guidelines and regulations for the design, installation, rehabilitation, testing and maintenance, triennial integrity testing of secondary containment components, and monthly facility inspections by a "Designated UST Operator". Non-compliance with UST laws or site assessment and mitigation (SA/M) requirements may make the City ineligible for reimbursement of an estimated \$4.0 million in current and future SA/M costs as well as liable for civil penalties of up to \$25,000 per day per site.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction occurred in Fiscal Years 1991 through 2006. UST work scheduled in Fiscal Year 2008 includes design or construction to upgrade 12 sites to the Phase II EVR System, in addition to other SA/M work.

Summary of Project Changes: This project has been extended through Fiscal Year 2017.

Annual Allocation - Groundwater Monitoring Network 32-017.0

Council District: Citywide

Community Plan: Citywide

Description: This annual allocation provides for minor improvements to existing Groundwater Monitoring Networks at all closed and operating landfills managed by the City of San Diego. Such improvements may include new facilities to monitor groundwater, preparation of reports necessary to modify the groundwater monitoring programs, or potential groundwater mitigation measures.

Justification: This annual allocation provides the flexibility necessary to respond to operational issues and possible changes in the Groundwater Monitoring Program required by Title 23, Chapter 15, Article 5 of the California Code of Regulations.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Annual Allocation - Minor Landfill Requirements 37-004.0

Community Plan: Citywide

Council District: Citywide

Description: This annual allocation provides for minor improvements to existing sanitary landfills to comply with operating permits and regulatory requirements. Such improvements may include fencing, access roads, drains, small structures, and environmental protection projects.

Justification: This project provides the flexibility for timely initiation of minor improvements and construction needed to meet operational and regulatory requirements.

Operating Budget Effect: The operating budget effect will be determined upon identification of specific projects.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Projects are scheduled on a priority basis.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Arizona Landfill - Closure 32-011.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for modifications to the existing landfill gas collection system to enhance operations and maintain regulatory compliance.

Justification: Federal and State waste disposal legislation require proper environmental safeguards to control landfill gas.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is consistent with the Balboa Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction began in Fiscal Year 1995 and will continue through each phase of the project, which is expected to be completed in Fiscal Year 2016.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.

Arizona Landfill Gas Utilization 32-022.0

Council District: 3

Community Plan: Balboa Park

Description: This project provides for design and construction of improvements necessary to make beneficial use of the landfill gas currently being flared at this site.

Justification: This project will demonstrate the use of renewable energy resources and will reduce the amount of energy consumed from the local utility company at park facilities in the vicinity.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the Balboa Park Master Plan and is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design began in Fiscal Year 2007 and construction is scheduled through Fiscal Year 2009.

Summary of Project Changes: This project has been extended through Fiscal Year 2009.

Refuse Disposal

Future Waste Management Disposal and Processing Facilities 37-254.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for the development and construction of solid waste disposal and processing options, which may include a new landfill or transfer facility. Strategic Planning, potential land acquisition, design, construction, environmental review and potential purchase of mitigation property are all within the scope of the project.

Justification: The City must continue to have adequate disposal or processing facilities for the solid waste it generates each year. Technology to recover and/or convert portions of refuse material into an energy base is being explored and developed. However, it appears that there will always be a need for landfilling part of the generated waste stream and residue from other solid waste disposal facilities.

Operating Budget Effect: None.

Relationship to General and Community Plans: The City's Progress Guide and General Plan and the community plans do not provide for this project. An amendment to these plans will be required prior to implementation.

Scheduling: Ongoing efforts are being made to identify potential sites and funding for future landfill and transfer facilities and are scheduled to continue through Fiscal Year 2016.

Summary of Project Changes: The title of this project changed from "Future Landfill and Transfer Facility" to "Future Waste Management Disposal and Processing Facilities".

South Miramar Landfill Slopes 32-024.0

Council District: 7

Community Plan: No Community Planning Area

Description: This project provides cover material, grading, drainage, and site improvements at the inactive South Miramar Landfill.

Justification: This project is required in order to maintain compliance with various State and federal regulatory requirements.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design is scheduled to begin in Fiscal Year 2008 with construction continuing through Fiscal Year 2010.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

Expenditures by Revenue Source

Unclassified Disposal/Burn Site Closures 32-010.0

Council District: Citywide

Community Plan: Citywide

Description: This project provides for preliminary assessments and remediation of various burn sites and unclassified disposal sites. These sites have been identified as potential health or environmental risks.

Justification: Assessments are required to determine potential impacts to public health and the environment. Sites that are determined to pose potential impacts must be remediated to prevent any impacts.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: It is anticipated that known burn sites will be addressed over the next five years, and future allocations are for potential improvement to these sites.

Summary of Project Changes: This project has been changed from an annual allocation to regular funding. Burn Site remediation efforts at closed landfills did not begin in Fiscal Year 2007 as anticipated, resulting in the estimated budget for Fiscal Year 2008 to be reduced by \$100,000. This reduction decreased the total project cost to \$2.3 million.

West Miramar Phase II - Landfill Gas System 32-014.0

Council District: 7

Community Plan: No Community Planning Area

Description: This project provides for a landfill gas collection system for the West Miramar Phase II Landfill.

Justification: This improvement is required in order to maintain compliance with various State and federal regulatory requirements.

Operating Budget Effect: The operating budget effect is estimated to be minimal.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Design and construction began in Fiscal Year 1996 and will continue through the life of the Landfill. Loan obligations will be repaid in Fiscal Years 2009 and 2010 with the remainder of the design and construction to begin in Fiscal Year 2011.

Summary of Project Changes: No significant changes have been made to this project for Fiscal Year 2008.

West Miramar Refuse Disposal Facility - Phase II 37-056.0

Community Plan: No Community Planning Area

Council District: 7

Description: This project provides for continuing development of the West Miramar Landfill, located southwest of Marine Corps Air Station Miramar. The facility will accommodate over 35 million cubic yards of refuse fill on 807 acres. Phase II will develop the second half of the facility, including design and construction of entry roads and drainage systems, excavation, federally-mandated liner systems, and stockpiling and spreading of earthen materials. This project also includes development of the General Development Plan elements for the entire site.

Justification: These improvements are required in order to ensure compliance with conditions set forth in the operations permit issued by the California Integrated Waste Management Board and the Regional Water Quality Control Board.

Operating Budget Effect: None.

Relationship to General and Community Plans: This project is in conformance with the City's Progress Guide and General Plan.

Scheduling: Engineering design and construction will continue through Fiscal Year 2016 in order to facilitate modular development as additional capacity is required.

Summary of Project Changes: No significant change has been made to this project for Fiscal Year 2008.
